

Useful APP

- Provides information of each patient and all the medications.
- Calendar with the adherence to the treatments.
- Immediate notifications if a treatment is not followed correctly.

- Guarantees treatment follow-up at all times.
- Creates reminders per patient.
- Simplifies the task of programming and preparing the treatments.

The **Pills&Care** dispenser is connected to the internet and has an **APP** that simplifies the task of programming and preparing your treatments.

Pills&Care dispenser

Ensure treatment monitoring
for your patients and...

**have all medications
under control.**
