

Maison Eole is the first beauty range formulated from the Belgian vine.

Launched in 2021, the family vineyard of the Domaine du Chant d'Eole has already won over the world with the quality of its fizzy beverages.

Young Belgian winegrowers offer fertile ground to the development of new active ingredients that are highly efficient in cosmetics.

It's only after a long research and development process that Maison

Eole could pinpoint a molecule, Wine Extracts³, used for the first time in European cosmetics. It overflows with powerful antioxidant properties which promote cellular regeneration and has an efficient anti-wrinkle effect. Our products are dermatologically tested.

Our project also advocates a societal approach. Our formulas are "Natural certified" and vegan. By proposing reusable wooden packagings, we also undertake an eco-friendly approach.

We hope you will enjoy our brand!
